The NY State STOP-DWI Foundation, Inc., through funding from the NYS Governor's Traffic Safety Committee, is pleased to sponsor a statewide training to benefit local STOP-DWI efforts in New York State. This seminar is free of charge to all STOP-DWI partners engaged in preventing impaired driving.

This course is designed for the patrol or DWI officer, though may be beneficial for Drug Recognition Experts, as well. In this course students will be exposed in depth to the drug category used in the Drug Evaluation and Classification Program. Students will be given an overview of the drug category along with current drugs within the category and how they act on the body. This course will also explore how people under the influence of drugs from the category may behave during standardized field sobriety exercises.
